

Miyazaki Chair Factory 2nd Exhibition in Milan

Design & Manufacturing of Wooden Chairs

Miyazaki Chair Factory, a furniture maker specialized in wooden chairs, will hold a private exhibition in fuori salone Milan 2013. It is going to be the second exhibition for two years in a row.

In spite of it being the first overseas exhibition, many people came to our exhibition last year. Moreover, Miyazaki Chair Factory was invited to WILD CARD participation for INTERIEUR 2012, the exhibition held in Belgium last October. "Manufacturing high originality chairs with handicrafts and machinery works", the policy of Miyazaki Chair Factory has been highly-praised.

We have selected about 20 original chairs and stools for this exhibition, including knockdown sofas collaborating with Makoto Koizumi, Kazuteru Murasawa, and Inoda+Sveje. And also, we will show a video where you can see how we work in the factory, design work shop, and also the background of production.

We will wait for you with new grand catalogs and knockdown sofa pamphlets at the gallery. Please come and look at our manufacturing which unifies design and techniques.

Date: April 10–14, 2013

11:00–19:00 (closed at 15:00 on 14th)

At : Galleria Seno

Via Ciovasso 11, 20121 Milano, Italy
